🧩 COURSE WORK

- Data Structures and Algorithms
- Computer Networks Operating Systems
- Ethical Hacking
- Linear Algebra
- Probability & Statistics

🎓 EDUCATION

B.Tech CSE Cyber Security

GITAM UNIVERSITY

2021 – 2025 | Visakhapatnam, India

C.G.P.A-9.26

11th - 12th

PALLAVI MODEL SCHOOL - ALWAL

2019 – 2021 | Hyderabad, India

Grade-81%

1st-10th

BHARATIYA VIDYA BHAVAN - SAINIKPURI

2009 – 2019 | Hyderabad, India

Grade-67%

🏠 ORGANIZATIONS

Vir Innovations Private Limited

Python Development Intern

05/2024 – present | Hyderabad, India

A product development company to create innovative products that can keep up with the rapid technological advancements of today's era.

PwC

Learner

I've been selected as one of the shortlisted students from our college for the PwC LaunchPad Program. The selection process covered exams on aptitude, verbal skills, computer fundamentals, coding, and basic cybersecurity questions, with me securing the third position.

Now, they're going to assist us in enhancing our skills and knowledge. It is a 6-month self-paced program

📁 ACADEMIC & PROFESSIONAL EXPERIENCE

Logistics

Google Developer Student Club(GDSC)

12/2023 – present

At GDSC GITAM, we're a community of passionate learners and creators. Our mission is to provide a platform for students to explore technology, collaborate, and gain practical skills. Whether you're a seasoned coder or just starting, GDSC GITAM-Hyd offers workshops, hackathons, coding challenges, and networking events for all skill levels.

- Design Analysis and Algorithms
- Database Management System

Program Coordinator

IEEE-CS

07/2023 – 07/2024

The IEEE Computer Society is more than just a club; it's a vibrant community of tech enthusiasts pushing the boundaries of innovation. Together, we've created an environment of learning, collaboration, and friendship, achieving numerous accolades. What truly makes me proud is witnessing the personal growth and transformation of our members.

Core Member

Gitam Rover Club

10/2022 – 08/2023

GRC is a student club that unites various disciplines to design and build a Mars rover while utilizing robotics technology to devise innovative solutions for real-world problems.

Research fellow

Hydrogravitricity

05/2022 – 09/2022

HydroGravitricity is a startup aiming to alleviate the global water crisis by offering a rainwater filtration and monitoring system for large structures like gated communities. The system provides real-time data on rainwater quality and quantity and sends smartphone notifications if any issues arise.
